

FRSH70

FIRE RETARDANT SACK HOLDER (70 LITRE)

Description

Fixed steel body Sack Holder, 70 litre capacity.

This steel sackholder passes all NHS fire tests, NHS HTM05-03 for Fire Safety. These sackholders were specifically designed for the hospital market but are also ideal for catering and industrial use.

The body of the bin is made from fire-retardant steel, painted for easy cleaning and improved strength. Depending on the type of waste, the body can be removed leaving just the steel frame in which to add the waste sack.

The pedal operation and recessed lid are designed to encourage hands-free use and higher levels of cleanliness.

- NHS approved
- Body colours: White or yellow
- Lid colours: Black, white or yellow
- Soft close as standard
- Pedal operated hands free operation
- Elasticated bag cord
