ALL PLASTIC REMOVABLE BODY SACK HOLDER

Description

All Plastic Fire Retardant Sackholder - no metal parts whatsoever

These all plastic sackholders pass all NHS fire tests, NHS HTM05-03 for Fire Safety. These sackholders are hands free pedal operated and are fitted with either fixed or removable bodies for ease of cleaning. They come fitted with soft closing lids as standard. These sackholders were specifically designed for the hospital market but are also ideal for catering and industrial use. These sack holders are a modular construction and are 100 per cent plastic. Units come fitted with a bag ring which will secure in an upright position. This allows for easy removal of the body and replacement of the plastic bag, as well as for cleaning and general maintenance.

- NHS approved
- 7 coloured lid options from White, Yellow, Black, Tiger Stripe, Orange, Green and Blue
- Removable or fixed bodies made from fire resistant PVC
- Soft close as standard
- Off the wall design
- Pedal operated
- Pedal controls enclosed in base of sack holder
- All units come with white removable or fixed bodies and black bases
- Cleaning agents up to 10000 parts per million can be used
- Please note that except for the body and lid (for fire retardancy purposes) all parts are made from recycled material

The plastics utilised in the design and manufacture of the finished units are food quality plastics (not the recycled base); as such they are sealed formed plastics. An anti bacterial coating is embedded within the plastic design.

Conformity

The units conform to **NHS HTM 05 - 03** for Fire Safety. Conducted at the NHS approved test facility at EXOVA Fire and Safety at Warrington.

The units conform to **NHS HTM WM 0701** for Colour Coded Waste Management Segregation.
